

## ACKNOWLEDGEMENTS

To my lovely wife Janet; my ever loving companion and supporter of 44 years, who, for seven weeks suffered from my separation at home every evening, while I wrote in longhand the first rough draft of 70,000 words. Then, put up with me being late for dinner each night, after my work day, away at the office, for over a year, when I copied and typed the second draft. Also, for encouraging me at all times, in producing my Memoirs up to 1945, entitled: So Many Secrets.

To my eldest son Benjamin who, spent time with me and drove me by car around the West Dean Estate environs, who stimulated me to write and best of all, executed many wonderful professional photographs and gifted them to me for publication.

To my youngest son Jonathan who, prompted me by saying: "Dad, you should definitely get down to recording your memories for the family."

To my daughter Louisa who greatly inspired me to write my Memoirs. Also, for spending her precious time, attempting to read and type from my illegible rough draft handwriting. Eventually giving up!

To my good friend and Web Master Gerald (Gerry) Reiff who, instructed me in many aspects of computer use, skills and knowledge. Without him I could not have produced as well, my complex Web Site. He also created order with my literary and photographic contributions.

To my 'on net' friend and American correspondent, Susan Ogawa, who, has been a fan of my written work in general and particularly kind and generous in her praise.

To my 'on net' friend and British correspondent, John Greves, who, once lived with his farmer- grandfather during the 1930s and 40s at Staple Ash Farm, West Dean Estate. He reminded me of place and people names related to The Estate. Also, he gave me clues to World War Two home defense information.

THANK YOU ALL WITH EXTREME SINCERITY.
